The modern age is an age of electricity. People are so used to electric lights, radio, televisions, and telephones that it is hard to(a)..... what life would be like without them. When there is a power failure, people are badly affected. Cars may be stuck in heavy traffic because there are no traffic lights(b)..... , and food goes bad in silent refrigerators.

Yet, people began to understand how electricity works(c)..... two centuries ago. Nature has apparently been experimenting in this field(d)..... millions of years. Scientists are discovering more and more that the living world may (e)..... a lot of interesting information about electricity that could benefit humanity.

1 - a

- ④ consume

Health is a/an(a)..... of complete physical, mental and social well-being and not merely the absence of disease. More recently, researchers(b)..... health as the(c)..... of a body to adapt to new threats. The best way to (d)..... health is to preserve it through a healthful lifestyle, rather than waiting until we are sick to put things right. This state of enhanced well-being is referred to as wellness. Peak health will be different for each person, and how you achieve wellness may be different from how someone else does. It may not be possible to avoid a

.....(e)..... completely, but doing as much as we can to develop resilience and prepare the body and mind to deal with problems as they arise is a step we can all take.

6- a
